## **Position Statement: Driver Education**

Driver education in Idaho Public schools should be consistent with the Idaho Standards and Benchmarks for Public School Driver Education and Training which can be located on the Internet at [www.sde.state.id.us/drivered/default.asp](http://www.sde.state.id.us/drivered/default.asp).

Driver Education in Idaho public school provides the basic foundation that will prepare students to begin the lifelong process of reduced risk driving. The experience should assist students to develop and use good driving habits; achieve desirable knowledge, understanding, attitudes, and practices related to reduced risk driving, through a combination of classroom and in-car instruction and observation that includes modeling, knowledge assessment, skill assessment, guided observation, and parental involvement.

A dynamic driver education program uses many resources in addition to the student textbook. A diverse assortment of driver education materials is available from commercial organizations as well as free materials from various organizations. These materials come in a variety of formats that meet the needs and interests of the students.
